

## What surrounds us, shapes us.

EXPLORING SAFE, STABLE, AND NURTURING RELATIONSHIPS
AND ENVIRONMENTS

On August 10, 2023, Cummins Inc., with support from Indiana Coalition Against Domestic Violence, explored violence prevention by questioning what safe, stable, and nurturing relationships and environments could look like in our communities, and what contributes to healthy, equitable relationships. Individuals used words and pictures to discuss what the words safe, stable, and nurturing meant to them. Responses were organized into four categorical layers (individual, relational, community, and public policy), demonstrating that what surrounds us, shapes us. In total, we had 92 responses for "safe," 92 responses for "stable," and 102 responses for "nurturing." Here is a summary of the responses:

COMMUNITY

Interconnected community abundant in

opportunities resources

centered around and promoting

welcoming empathy & inclusion respect & acceptance

autonomy peace, love & unity allyship values

## RELATIONSHIPS families mentorships spiritual relationships friends teams fostering and providing vulnerability & listening in patience, forgiveness & understanding consistent communication providing validation hugs & attentiveness, support & helping & reassurance kisses reading to kids reaching out to help trust
